The most underestimated asset of 2023.

Cryptocurrencies are transforming our world.

Here's the top 5 ways crypto will change your life:

+ < ⚡ Again >

test_acc @k_testacc

1. Decentralized Finance (DeFi)

Bypass banks, middlemen, and fees.

Imagine:

- PayPal, but without the need for a central company
- A rental service, without having to go through Airbnb
- A stock exchange, without having to go through a brokerage

DeFi is the future of finance.

2. Ownership Economy

Crypto enables true ownership of digital assets.

- Digital art
- Music
- Video content
- Virtual real estate

Creators no longer need to rely on corporations to sell

Includes automation features to further reach as well..

There's never been more money in the system.

But creating wealth has never been harder.

People work to the bone and still come out negative.

I'm devoting the next decades of my life to this problem and here's why 📌

Alright gang. This has been in the works for a while. It is still a WORK IN PROGRESS, so please be patient, but I think it'll still be helpful in its current state.

I am excited to share with you, the NFT Artist Directory: <https://t.co/MMxUGaigoP>

Hypefury: (<https://hypefury.com/>)

\$19/mo for standard plan

Can connect to LinkedIn as well, in general more high level than tweetmonk with Analytics feature as well.

Includes the AI writer, AutoRTs, autoplug, inspiration panel (basically successful tweets for ideas), analytics, and the social integration lets one post it on other platforms as well.

Writing Tools and Content Creation

WriteSonic:

(<https://writesonic.com/>)

Pretty popular tool, with a very broad user base.

But under the social media category it does have tools dedicated to linkedin/twitter content creation.

Twitter Threads V2

A series of tweets that will hold readers' attention and lead them to a conversion.

Social Media Content Plan

A social media content plan that will help you create engaging content for your audience.

LinkedIn Posts V2

Inspiring LinkedIn posts that will help you build trust and authority in your industry.

Instagram Captions

Captions that turn your images into attention-grabbing Instagram posts.

Twitter Tweets

Generate tweets using AI, that are relevant and on-trend.

Trending Instagram Hashtags

Trending and highly relevant hashtags to help you get more followers and engagement.

YouTube Descriptions V2

Catchy and persuasive YouTube descriptions that help your videos rank higher.

YouTube Intros V2

Catchy intros that will get viewers hooked before they even start watching.

Generated

Free for initial ten thousand words, then \$12.5/mo.

This is the LinkedIn tool for instance, similar to the linkedin content creation tools I'd shared previously.

AISEO :
(<https://aiseo.ai>)

Starts at \$15/mo

Has several sub-bots for different contexts, but overall nothing specific to twitter/linkedin content creation.

But it does have blog and article writing, along with content paraphrasing, that could be useful for LinkedIn posts.

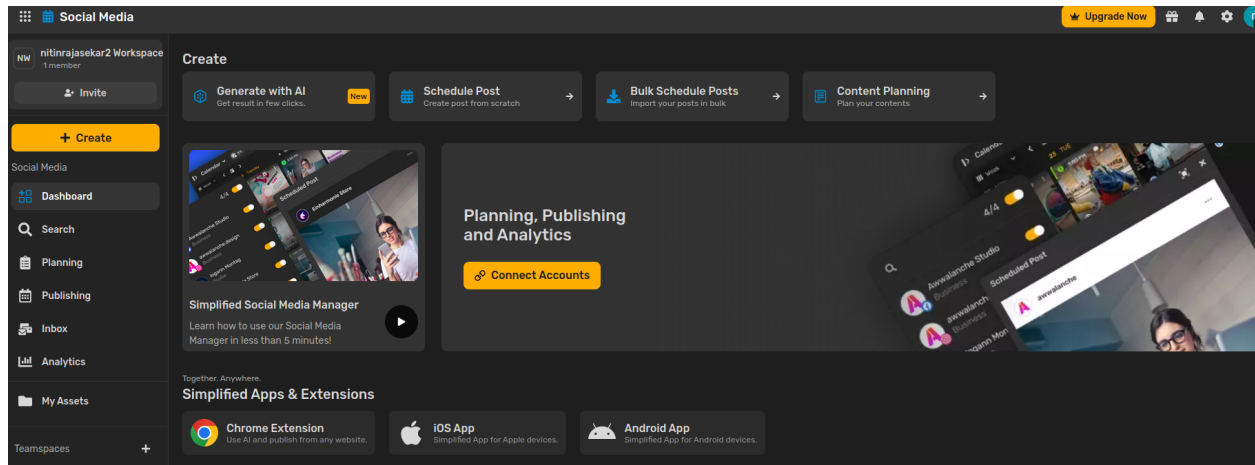

Simplified: (<https://app.simplified.com/home>)

Simplified focussed specifically on marketing for companies.
Its more of a general brand social media management tool

Its Social Media section.

It does have a free plan which is mostly for designing, but scheduling and publishing content, directed towards companies, is \$20/mo.

Quillbot:

(<https://quillbot.com/>)

Simple tool to help with writing; can help with paraphrasing and general quality checking of content before posting.

But then unless one is planning on huge posts, it is pretty much free of cost to use for paraphrasing and summarizing at least.

Has a word limit for max words allowed at once, but if one splits the content into smaller chunks it can work on any size.

Pretty simple interface
